PROFILE

Frontend developer with 5+ years of experience building web and cross-platform mobile applications with React, React Native, and Next.js. Delivered production features for major companies in fintech, retail, and healthcare, including a virtual wallet, a national supermarket chain, and a pharmacy chain. Experienced building React-based internal tools and CMS platforms, as well as integrating Generative AI APIs (Gemini, Claude) into product features. Comfortable across the full development lifecycle, from architecture and state management to testing and deployment. Focused on clean, maintainable code and strong user experience.

CORE SKILLS

- React.js & Next.js
- React Native (Expo & bare workflow)
- Cross-platform & web architecture
- State management (Redux, Context API, Zustand)
- REST APIs & GraphQL integration
- Agile / Scrum

COURSES

Full stack developer (desarrollador web),
Henry

2021 – 2022

An online program that simulates a real work environment and prepares you for a career as a Full Stack developer,

TECHNOLOGIES

React js, Next js, TypeScript, HTML, CCS, Less, Tailwind CSS, API REST, GraphQL, Redux, Node js, React Native, Claude code, Cursor, Figma, Express js, Firebase, Mongo db, Github, Jira, Bitbucket

WORK EXPERIENCE

Frontend developer, Globant

10/2024 – 07/2026

- Sole frontend developer on an internal cross-functional AI innovation initiative, designing and building a web application from scratch using React and Vite, integrating Gemini and Claude APIs into core product features.
- Developed and maintained cross-platform mobile features using React Native for La Anonima (a major Argentine supermarket chain) and Farmacity (a leading Argentine pharmacy chain), following clean architecture principles.
- Collaborated with designers, backend engineers, and QA in an agile environment, participating in daily stand-ups, sprint planning, and code reviews.

Frontend developer, Globallogic

11/2023 – 11/2024

- Built and maintained features for ClaroPay, a widely used virtual wallet app for Claro customers in Argentina, using React Native (Expo).
- Performed maintenance and feature development on a React.js-based CMS used to manage content and configurations for the ClaroPay app, enabling the team to push content updates without requiring new mobile app releases.
- Implemented push notifications and deep linking to improve user engagement and in-app navigation.
- Contributed to code reviews and upheld coding standards within a Scrum team.
- Partnered with UX/UI designers and backend engineers to define technical solutions for new features.

Frontend developer, Global Wizards

09/2022 – 10/2023

- Developed interactive, mobile-optimized interfaces using React Native, with a focus on smooth UX and performance.
- Integrated Firebase to support core app functionality, authentication, and user data security.
- Handled ongoing maintenance and troubleshooting to ensure app stability and a smooth user experience.
- Collaborated with the team on architecture decisions and code reviews.

React Native Developer, AiMonkey

01/2021 – 09/2022

- Built new features across web (React.js) and mobile (React Native) frontends, plus backend support (Node.js), for Regatta Fitness, a fitness app with 10,000+ downloads.
- Implemented social media sharing functionality using the GetSocial library.
- Provided ongoing maintenance for apps built with JavaScript and TypeScript.
